

FACT SHEET

ANTIDEPRESSANT ADHERENCE APP

The Antidepressant Adherence application (app) creates a tracker for patients to input their medication types, dosages, delivery methods, days, and times for taking medications. The app will set reminders and keep track of dosages taken and missed. The app also provides resources regarding medications and conditions.

This app is available for free download to iPhone and Android devices. It was produced by the Web & Mobile Technology (WMT) Program Management Office, part of the Defense Health Agency (DHA) Solution Delivery Division. WMT provides web and mobile solutions to the DHA and other Department of Defense and Veterans Affairs organizations.

To view more Defense Health Agency mobile applications, visit mobile.health.mil.

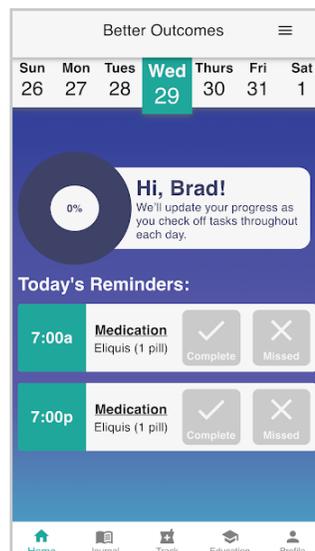

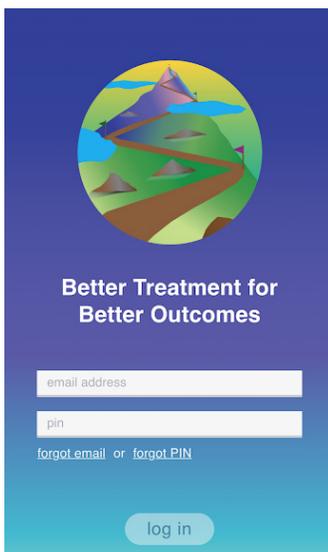

Key Benefits

- ▶ Input medications
- ▶ Set reminders
- ▶ Identify issues

Key Features

- ▶ Provides educational online resources
- ▶ Provides provider contact information
- ▶ Dosage calendar
- ▶ Journal for patients to make notes for provider visits
